ANNOUNCEMENT

Exclusive Regional Distributorship to MiRXES microRNA Lifesciences Solutions

MiRXES Pte Ltd is a Singapore headquartered biotechnology company focused on developing miRNA based research solutions and clinical diagnostic assays. MiRXES was founded in 2014 and has R&D and commercial operations in Singapore, China and US.

We are pleased to announce that we have appointed HomegrownBio Pte Ltd, Singapore as our exclusive regional distributor for selected Asia Pacific (Malaysia, Thailand, Indonesia, South Korea, Australia, New Zealand, Vietnam, Cambodia, Myanmar, Brunei, Philippines, Hong Kong, Taiwan, Japan, India), Europe (Turkey, Italy, Switzerland, Belgium, Croatia, Luxembourg, Netherlands, Slovenia, Czech Republic, Slovakia, Germany, Austria, United Kingdom, Spain, Poland) and Middle East (Pakistan, Egypt and Israel) territories. HomegrownBio Pte Ltd is also appointed as MiRXES' non-exclusive distributor for Singapore.

This distribution agreement covers MiRXES' Lifesciences solutions including

- ID3EAL miRNA Knowledge Panel
- ID3EAL miRNA qPCR Assays
- ID3EAL Spike-in RNA Kit
- General RT-qPCR reagents
- Selected biomarker discovery solutions

Under this agreement, HomegrownBio Pte Ltd will be supporting MiRXES's distribution commitment for the Life Science Business in these territories, including the engagement, training, logistics, pre and after-sales support for researchers in these regions.

Dr Lihan ZHOU, CEO of MiRXES, shared, "MiRXES is entering a new phase of growth as we prepare for the launch of our miRNA cancer detection assays in Asia. The company is investing heavily on R&D, manufacturing and commercial infrastructures in focused Asian territories. We remain 100% committed to our partners and customers who are using MiRXES' Lifesciences technology platform to drive cutting edge sciences and innovations in miRNA research. As such, we are excited to work with the HomegrownBio team, made of experienced Lifesciences business professionals and former members of the MiRXES team, to better streamline our distribution and support capabilities in the APAC, Europe and Middle East territories."

Lihan ZHOU Ph.D.

CEO, MiRXES Ptd Ltd

HomegrownBio Pte Ltd, Singapore

A privately-held Life Science Distribution Company focusing on Molecular Solution in Singapore. HomegrownBio Pte Ltd is operated by specialists familiar with MiRXES Lifesciences portfolio. MiRXES microRNA solution anchors its distribution core. HomegrownBio Pte Ltd plans to bring on additional brands to strengthen its Molecular Portfolio. It will focus on homegrown Singapore Technology Startups looking to expand its commercial footprint across and beyond Asia Pacific.
